CUSTOM ITEMS

Trim and Banding: To order, complete the form on the right as indicated. There are a number of ways that trim and banding can be applied as illustrated in the diagrams.

You must specify where indicated on this order form exactly how far in from the side, or up from the bottom, banding should be placed, whether trim should be flush or hang below the bottom of the valance, and so forth.

Banding is 2" wide. If you order trim or banding, we will automatically adjust the hem length so that the trim or banding will show when the shade is up. If you do not want this adjustment, you must tell us on this form.
